

Advanced Scheduling

Why Benchmark?

“Our decision to partner with Benchmark is confirmed every day. Their scheduling and billing software was easy to install and their support is excellent.”

Jennifer Hodges
Bay Internist, Inc.

Advanced Scheduling

Regardless of the size of your practice, scheduling is likely one of your biggest front-office headaches. Simplify this essential element of everyday office management with Benchmark Advanced Scheduling.

Fully-integrated with our Practice Management solution, Advanced Scheduling makes it easy to allocate all of your critical resources to greatly increase the overall productivity of your practice. Now you can maximize time, resources and efficiency while improving patient care and satisfaction.

Gain visibility and control with our intuitive interface, color coding and customized viewing options. Optimize clinical assets, including physicians, nurses, exams rooms and equipment with multiple resource scheduling. Ensure insurance eligibility, confirm co-pays and view accounts receivable balances before patients arrive. Eliminate the complexity of scheduling for multi-site practices by linking all of your locations, so you can see patient records, check resource availability and even schedule patients at any site.

Benchmark Advanced Scheduling gives you the tools and technology you need to drive operational efficiency and revenue growth while providing the highest quality patient care. You select the views and scheduling options that work best for your practice. You can extend this flexibility to your patients, giving them the option to book appointments online and receive automated appointment reminders via phone or email.

Best of all, you can turn to Benchmark Advanced Scheduling without turning your practice inside out. Our flexible architecture lets you customize this module to suit your practice, patients and personal management style. Installation and set up are simple, but we're here to help should you need assistance. Plus, we offer a variety of support and training options to ensure that your entire staff has the know-how and confidence to fully utilize Advanced Scheduling.

Ready to eliminate the scheduling complexities that slow your practice down and stand in the way of superior patient care? Contact us to get started with Advanced Scheduling today.

Rely on Benchmark Advanced Scheduling

Private practices, medical centers, hospitals and clinics rely on Benchmark's Advanced Scheduling to:

STREAMLINE SCHEDULING

Schedule or find any appointment in seconds within the 24-hour wraparound calendar. Copy, paste, drag and drop for easy scheduling and rebooking. Book complex recurring visits with ease. Enter new patients without slowing down to create account numbers. Block and color code appointment types for more efficient scheduling. Easily schedule physicians and patients across multi-site practices at any site as if you were there yourself.

OPTIMIZE CRITICAL ASSETS

Advanced Scheduling helps you make the most of your critical assets. Manage unlimited schedules and multiple resources in seconds. Choose from multiple views, including day, week, month, doctor, specialty, locations and more. Assign procedure time lengths. Block or hold times for exam rooms and clinical assets for any reason. Also grant permission to double or even triple-book appointments if necessary.

IMPROVE PATIENT CARE & SATISFACTION

Happier patients lead to higher profits. With Advanced Scheduling, you can give your patients the option to request their appointments for exams, visits, treatments or procedures online. Plus, they'll receive automated appointment reminders via phone or email. Automated wait lists let you offer patients the next available time slot and make it easy to convert cancelled appointments into patient visits. You'll also improve patient care by scheduling patients for recurring appointments and seasonal programs such as vaccinations.

ENHANCE OPERATIONAL EFFICIENCY

With Benchmark Advanced Scheduling, you can quickly improve operational efficiency. Modify our comprehensive and scalable scheduling options to fit your individual practice dynamics. Cross-schedule providers and patients across multiple offices and clinics. Track authorized visits, cancellations and no-shows. View patient accounts receivable balances and display visit co-pays. Automatic electronic insurance eligibility checking and one-off checking for walk-ins ensures that you won't be stuck with unpaid balances. Convenient Web-based access lets you view and modify schedules from anywhere at any time.

Experience a Legacy of Success

As a CCHIT certified vendor, Benchmark has the experience and expertise to help you significantly lower expenses while improving patient care with our flexible advanced technology and superior customer service. Visit benchmark-systems.com to learn more or contact us to join the thousands of physicians in over 120 specialties who use Benchmark's integrated solutions, including Advanced Scheduling, every day.
